CERN and Rackspace to Collaborate on Hybrid Cloud Platform ^[1]

Date published:

1 Jul 2013

Outlet:

ostatic.com

As announced on the Rackspace blog, the company is collaborating with the European Organization for Nuclear Research (CERN) on what's described as "an amazing mission," focused on OpenStack. CERN operates the world's largest particle physics laboratory and its research has uncovered some of the mysteries of the universe.
